SUMMARY

Results-driven **Senior Developer** with over **4 years of experience** specializing in **React.js, JavaScript, and Redux**, with working knowledge of **Node.js and MySQL**. Proven ability to develop scalable, high-performance web applications from the ground up. Experienced in performance optimization, reusable component architecture, and seamless API integration. Passionate about innovation, clean code, and delivering user-centric solutions across the full software development lifecycle.

SKILLS

Frontend Development: React.js, Redux, Redux Toolkit, Next.js, WordPress

Backend & Database: Node.js, Express.js, MySQL (CRUD operations, Joins, Stored Procedures)

Languages: JavaScript (ES6+), TypeScript (Basic)

Styling & UI: Material UI (MUI), HTML5, CSS3, Bootstrap

Performance Optimization: Lazy Loading, Code Splitting, Memoization, Webpack

API Integration: RESTful APIs, Third-party APIs, Postman, Swagger

DevOps & Tools: Git, GitHub, VS Code, AWS S3

Testing & Automation: Cypress, Jest

WORK EXPERIENCE

Senior Developer, Singaji Software Solutions, Indore

Aug 2023 – Present

Project 1: BUZZ

- Led development of a scalable and reusable UI with ReactJS and MUI to improve performance and consistency.
- Integrated REST APIs to enable seamless backend communication and dynamic content rendering.
- Implemented Cypress tests for critical workflows, ensuring stable releases.

Project 2: MSAT

- Developed a responsive, user-friendly layout using HTML5, CSS3, and Bootstrap.
- Collaborated with designers and stakeholders to align UI with branding and UX goals.
- Enhanced loading speed through code optimization and modular structure.

React.js Developer, Baelworks Innovation Pvt. Ltd., Bangalore

Feb 2021 – July 2023

Project 1: ADSprint

- Built real-time data interfaces using ReactJS and DataGrid, optimizing performance and clarity.
- Used AWS S3 for efficient storage and retrieval of assets.
- Applied code-splitting and lazy loading for performance optimization.

Project 2: SOAR - Cyber Defense Portal

- Developed interactive front-end with React Flow to visualize complex cybersecurity workflows.
- Maintained efficient state management using Redux Toolkit and handled secure API calls.
- **Worked on backend modules using Node.js and MySQL** for task automation and role-based access control.

EDUCATION

- **B.C.A. (Computer Application)**, Vikram University, Ujjain | **66.92%** 2013 - 2016
- **Higher Secondary School**, Madhya Pradesh Board, Bhopal | **67.60%** 2012 - 2013
- **High School**, Madhya Pradesh Board, Bhopal | **66.50%** 2010 - 2011
